Bee Hive Bin®

Keep salt dry and secure in the Beehive Bin

Widely used by local authorities and on private premises, these durable bins are fully weatherproof with a reinforced lid and base design which makes them ideal for roadside storage of salt or grit.

Bee Hive bins are UV stabilised for durability.

75% nesting with full 290° opening means the bins are fully stackable which is excellent for storage - they stack 10 high / 20 per pallet.

Yellow as standard, but available to order in other colours with customised text for a variety of uses (minimum quantities may apply).

The Benefits

- Fully weatherproof – reinforced lid fully seals the bin
- Forklift Recess – Ease of handling with forks or straps
- Full 290° opening
- Capacity 6 cu ft/170 litres
- 75% stackable for efficient summer storage
- Lightweight for ease of handling
- Customised logos & lettering available, SALT-GRIT moulded in lid
- Available in a wide range of colours
- Manufactured from polyethylene
- UV stabilised - will not go brittle

Typical Applications

- Roadside storage of salt/grit
- Car parks
- Oil spill kits

Dimensions

- Width 1050mm
- Height (measured at the back) 704mm
- Depth (measured back to front) 600mm
- Weight 15Kg

Other sizes and types of bins available, please enquire.

Grit Bin Kit

Frozen roads and paths can result in dangerous accidents, reduce the risk with a grit bin kit.

The kit contains everything needed to increase safety when there's ice on the road.

Kit Contains

- 1 Bee Hive Bin
- 4 Bags of Rock Salt
- 1 Shovel

Beehive bins are not just for storage of salt - they can be used to store just about anything.
